I.N.K. Experiment Duo is a dynamic and creative ensemble interested both in classical music and new styles, seeking inspiration from collaborations with composers and instrumentalists of different backgrounds. The peculiar mix and blending of their classical background and various professional experiences - rock, pop, contemporary, experimental and traditional music, is at the source of duo's flexibility and spontaneity.

The duo has been active since 2014, regularly appearing at international festivals in The Netherlands, Germany, USA, China, Switzerland, Croatia and France (Dubrovnik Summer Festival, Osor Musical Evenings, Zeltsman marimba Festival, Amsterdam Marimba Weekend, Westfalen Classics, PASIC, IBMW, Kalima, Teng Yu Ning Xin Festival,...) and giving masterclasses and workshops worldwide.

They have several international projects – INKarnation (FR) - tango nuevo crossover (Guillaume Hodeau, bandoneon) , Watchers of the Skies (USA, HR) - arrangements of rock classics from the 70-ties for percussion ensemble, ElektroINKeMenT (FR,HR) and Arabesques pour des ombres imMobiles (FR,HR) – electroacoustics (multimedia artists Mathieu Teissoniere, Mijo Gladović, Résonance numérique), multimedia project Orange vs Blue (composer Olja Jelaska, journalist and producer Toni Volarić), appearances with the jazz rock quartet Chui (including their upcoming vinyl record) .

They have commissioned and premiered several new pieces from international artists of different styles (Lucas Guinot, Teodora Stepančić, Jean-Luc Rimey Meille, Ksenija , Gordon Stout, Sonja Kalajić, Gordan Tudor, Olja Jelaska...) and arranged music of various genres. Nikola and Ivana are authors of several pieces for different ensembles (Edition Svitzer, Inkoplastika Edition).
